

TO WHOM IT MAY CONCERN

18 Jul 2023

Dear Sir / Madam,

TESTIMONIAL

Ms. Han Xin Ying was a Food Tech Trainee reporting to our company's Food Tech Lead from 22 Aug 2022 to 21 Jul 2023. Her scope included, but not limited to, the technical support of the manufacturing of plant extractions, functional food formulation and participating in related marketing activities.

Xin Ying exhibited much-welcomed curiosity in the course of her product development training which enabled healthy and robust discussions of new playbooks, formulations and ideas in problem solving. Her selfless contributions above and beyond her core focus assisted the company to achieve her goals easier and in a much shorter time. Her superiors and peers are confident Xin Ying has also benefitted from the exposure to the start-up environment that was often fluid and fast-paced. She has more than coped well and even flourished.

With her stint with the company coming to an end, Xin Ying continues her pursuit for knowledge in her overseas study program. Kosmode Health and friends wish her the very best in her next chapter and we certainly will welcome her back into our midst when our future paths cross.

Yours Faithfully,

On behalf of Kosmode Health Singapore Pte Ltd

Name : Dennis Foo

Designation : Deputy General Manager
